MEMORANDUM FOR: Dick

FROM : Pat

SUBJECT : Crisis Management Task Force

1. Attached is the revised (and hopefully final) outline agreed to at today's meeting of the Crisis Management Task Force. Cord Meyer intends to present this to the EAG with a covering memorandum asking for EAG decisions in some key areas. NOTE: The covering memo will come to us before it goes forward.

2. The principal subject of concern is the <sup>location</sup> ~~designation~~ of the Community Crisis Collection Coordinator. Cord intends to present four options to the EAG -- they will also have to decide whether the person should be full- or part-time. They are 1) Intelligence Community Staff. This was opposed by some as interfering with the Staff's ability to do an objective post mortem as they would in effect be grading themselves; 2) double hat Vince Heyman; 3) Special Assistant to the DCI; 4) the National Intelligence Office. I think you may want to discuss this last option with Cord.
